OPTIONAL EQUIPMENT

BOAT DESCRIPTION

BSC RIB - CLASSIC LINE

Classic line of BSC Colzani factory has 10 models ranging in size of 4.3 meters - 7.5 meters. BSC Inflatables are famous for their design and quality. These 10 models are the most popular inflatables of all 3 lines from BSC factory. They are rich with storage compartments and practical solutions at various locations. Basic models are richly equipped and there is also large selection of additional equipment. Thanks to its hull design and larger width they have excellent floating ability and stability at high speeds.

RIB BSC 75

BSC 75 is the largest model in the Classic line of BSC Colzani factory. Arrangement of seats is the same as model BSC 65 with rear U-shaped bench connected with driver's seat. The console is located on the right side which leaves a large passage on the left side. Because of its size is very roomy and comfortable, and extremely stable in all weather conditions. It can take up to 280 HP engine and up to a maximum 24 people. Besides the very rich standard equipment, for this model is available wide choice of additional equipment from which we recommend very good folding stainless steel roll-bar with associated bimini sunshade, electric fridge 41 L, windlass and a high quality winter cover.

NOTES:
