## BOAT DESCRIPTION

### BSC RIB - CLASSIC LINE

Inflatables found in BSC Colzani's Classic line are high quality and durable. They are designed for sports use as well as cruise and leisure. The main reason for their longevity and quality is Hypalon rubber which is used in making rubber parts for all of our BSC Colzani RIBs. Except quality, our inflatables are characterized by convenience, because of the many practical solutions and numerous storage compartments. BSC Colzani inflatables stand out with rich standard equipment and wide selection of additional equipment.

### RIB BSC 53

BSC 53 is a member of Classic line in BSC Colzani boats. It is characterized by comfortable rear bench that can go down to order to make comfortable sundeck and console on the right side to make easier movement at boat. This is the optimal model from this class of boats, and despite of only 40 cm greater length is quite comfortable and can hold a larger engine. It can comfortably accommodate up to 10 people. Because of the spacious side treads it is relieved entry into boat from shore and swim platforms make it easier to enter the boat from the sea.
